

Cloud Answering Machine.com

09.04.2016

Infinite Loop Development Ltd
info@cloudansweringmachine.com

Overview

This API enables you interact programmatically with your answering machine, so you can import your calls into a database, or interact with your CRM system. The API is a SOAP-based .NET webservice.

GetMessages

Endpoint: <http://www.cloudansweringmachine.com/api.asmx?op=GetMessages>

You pass your username and password, and receive XML in the following format:

```
<ArrayOfMessages xmlns:xsi="http://www.w3.org/2001/XMLSchema-instance"
xmlns:xsd="http://www.w3.org/2001/XMLSchema"
